Re: Recent visit to Quarries, and Reclamation Bond for the Leamington Quarry

Dear Mr. Hedberg:

I would like to express my appreciation for your recent visit to the Navajo Sandstone, County Canyon, and Nielsen Sandstone quarries on May 23, 1994. It our desire to complete the reclamation project and test plot project in a timely manner. Your visit has provided us with valuable information to do so.

As we discussed while you were on site, it is your intention to put me in contact with someone in your division that can assist in developing a scientific approach to the County Canyon test plot. Please give him the enclosed copy of my business card and ask him to contact me.

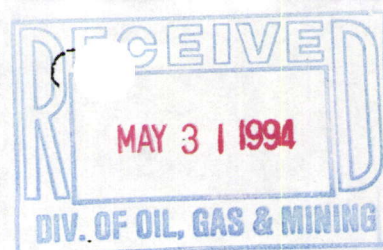

In reference to the surety bond for the reclamation of the Leamington quarry, enclosed is a two page document that was received from the Forest Service. This document gives the State of Utah, Division of Oil, Gas And Mining, and the Forest Service, joint-agency. Let me know if this is sufficient information for the state.

Sincerely,

Andrew Robinson
Plant Engineer
